

Voice Siren

The voice siren is a two-way wireless siren which functions not only as an alarm siren but also includes a speaker for voice prompt audio. Like any siren, it emits a deafening sound when triggered to frighten away intruders. The voice prompt feature serves not only to inform the user of an alarm condition but can also be used throughout the entire operation of the smart home system to guide the user, giving a personal and friendly human touch. The voice siren is a member of U-Net series of devices and is fully compatible with any U-Net enabled gateway.

Main Features

- 100dB loud alarm siren
- Audio voice prompts and alert
- USB port to download voice file
- Battery powered operation
- Wireless two-way communication
- Auto-pairing to the gateway

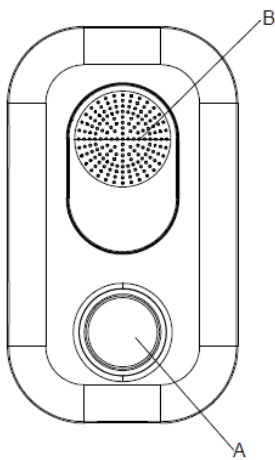

Brief Product Specifications

HARDWARE

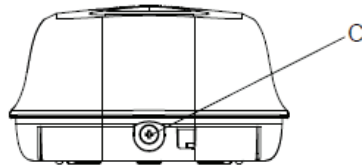

Alarm sound	100dB @ 30cm
Interface	1 x Tamper switch, 1 x USB port, 1 x Link button, 1 x LED strobe light indicator, 1 x DC jack
Operating Frequency	868 MHz

SYSTEM

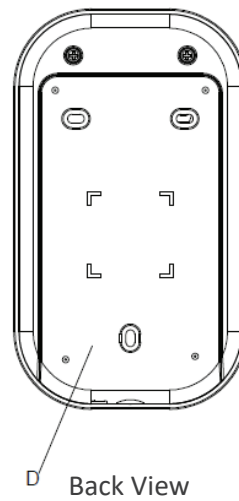

Humidity	85% RH max
Operation temperature	-10 - 40°C
Battery	4 x 1.5V Alkaline LR14 C-cell
Power source (optional)	DC adaptor, 6V@ 600mA
Dimension (mm)	90(W) x 155(H) x 50(D)
Weight	680g, including batteries
