

# IP Gateway

The gateway is a transceiver which belongs to the member of U-Net series and is fully compatible with any U-Net enabled devices. It is accompanied by the software, to reliably, remote control and monitor your devices. Whether you'll be on site and logging in through your network, or away from the premises, logging in through the internet, you'll always have access to control and monitor your security system.

With the gateway and the system, you can achieve a better control of your home security, to make your life safer and easier than ever before.

## Main Features

---

- Wireless U-Net module inside
- Optional rechargeable battery to last 48hrs backup power
- Support VPN for internet security
- Internal USB port for expansion
- Extra RJ45 port to extend ethernet to other devices

*Smarter, Safer, Greener*

# Brief Product Specifications

Operating Frequency	868 MHz	Power input	DC adaptor, 9V @ 2A
RF range (open space)	>200m	Backup Power	6V 2100mAh NiMH battery pack x 1
RF protocol	U-Net 3.0	Operation temperature	0 - 40°C
Connector	3 x USB1.1, 2 x RJ45	Operating humidity	85% RH max
User interface	4 x LED, 1 x Link button, 1 x Reset button	Dimension (mm)	167(L) x 35(D) x 217(H)
		Weight	495g
